SENT TO SAN DOMINGO

Cruiser New Orleans Detached From the North Atlantic Squadron.

MACHIAS GIVEN ORDERS

To Proceed to the Same Destination. Steps Taken by Secretary Long as a Precautionary Measure—Melline's Inconsistent Criticism of the Reciprocity—Marines Ordered to Manila.

Washington, July 29.—Secretary Long yesterday issued orders detaching the cruiser New Orleans from the North Atlantic Squadron at Newport and directing her to proceed at once to Santo Domingo city. Orders were issued also to the Machias, now at St. Thomas, to proceed to the same point via San Juan. These orders were issued at the instance of the state department and as a precautionary measure, owing to the disturbed conditions following the assassination of President Houmaux of San Domingo.

Neither the state nor navy departments have received any advice of an alarming character, but owing to the large American interests on the island it was deemed advisable to take every precaution. It is understood that American capitalists have entered into an arrangement with the Dominican authorities by which practically the entire machinery of the island administration is under their direction.

The New Orleans sailed from Newport last evening. The sail to San Domingo City is about five days, so she is due there about next Wednesday.

The Machias is only a day's sail from that point, but she will go to San Juan to carry back Captain Snow, the naval commandant of that port.

M. MELLINE.

Former French Premier's Criticism of Reciprocity Treaty Inconsistent.

Washington, July 29.—A semi-official statement made in Paris that American leather does not get the minimum rate under the new reciprocity, although M. Melline's cabinet offered this rate to American leather, caused considerable amusement in official circles here. It is one of the recorded facts of the recent negotiations that M. Melline, who is now attacking the new treaty, offered far greater concessions on American goods than the present ministry permitted to be inserted in the treaty as finally formed. M. Melline was at the head of the ministry during the early stages of the reciprocity negotiations, and at that time Commissioner Kassar received a proposition from the French authorities that the minimum tariff would be granted on the entire list of American goods sent to France. This proposition of the Melline cabinet stood until two weeks ago. The present ministry decided, however, that the original offer of the Melline cabinet had gone too far, and as a result a new proposition was advanced to omit from the minimum list a large number of agricultural products, such as leather, horses, cattle, butter, etc., produced largely in France. In the final draft of these exceptions are made, so that the instrument is much more considerate of French interests than it would have been had it been framed under the original proposition of M. Melline, who is now at the head of the opposition to the treaty.

TAKING THE CITADEL

In war when a town is taken by storm there is no use in merely capturing the outworks or lower fortifications. As long as the enemy holds the highest stronghold the town is not conquered.

In warring against disease there is no use in simply overcoming the minor symptoms. There are plenty of mere stimulating preparations largely composed of alcohol, which give a false and temporary exhilaration followed by relapse, but Dr. Pierce's Golden Medical Discovery is a true and radical remedy. It contains no alcohol. It does not inebriate or create a craving for intoxicating stimulants. It does more than overcome the outer symptoms of disease. It attacks it in its highest stronghold and routs it absolutely and completely from the very citadel of life. No honest dealer will advise you to accept a substitute for "Golden Medical Discovery" that he may make a little larger profit.

"I feel it my duty to write and tell you what Dr. Pierce's medicine has done for me," says Miss Emma Lee of Willford, Sharp Co., Ark. In a friendly communication to Dr. R. V. Pierce of Buffalo, N. Y., "I was suffering severely and tried several doctors' remedies but received very little relief. I had bronchitis, catarrh, and also womb disease. I took eight bottles of Dr. Pierce's Golden Medical Discovery and the first bottle I could see that the medicine was helping me. I also used the local treatment you suggested.

My sister says your medicine did her more good than anything she ever took. She was down in bed and could not walk until after she had taken your medicine, and now she goes where she pleases and helps to do her work."

Every suffering man or woman should write for a free copy of Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser. It will be sent paper-bound for the bare cost of mailing, 21 one-cent stamps, or in heavy, handsome cloth-binding for 31 stamps.

state department the \$9,000 collected by General Torres from the American merchants in Bluefields should be returned to them. The merchants were required to pay this amount of money on goods that had been previously assessed by the revolutionary party while the latter was in control at Bluefields. Our government objected to this double collection and the money was placed in escrow with the British consul at Bluefields awaiting the decision of the legality of the last collection.

MARINES ORDERED TO MANILA.

Washington, July 29.—The navy department has ordered a battalion of marines, 358 in all, to proceed to Manila take station at the Cavite navy yard, to reinforce the small contingent now there. The war department will furnish transportation for the marines, carrying them on steamers leaving San Francisco on Aug. 8 and 15.

HAIL AND WIND

Destroy Wheatfields That Would Have Yielded 25,000 Bushels.

Clear Lake, S. D., July 29.—A hail and windstorm struck this vicinity late yesterday afternoon and did considerable damage. The storm covered a strip of territory four miles wide and 10 miles long, wiping out wheatfields that would have yielded 25,000 bushels.

Many New Cases of Smallpox. Frankfort, Ky., July 29.—The city council of the state capital held a special session yesterday, and upon recommendation of the health board again issued orders closing all churches and prohibiting public gatherings indefinitely. A former proclamation of this kind was rescinded last week, previous to the Populist state convention. It is now reissued on account of the appearance of many new cases of smallpox.

OLYMPIA'S ELECTRICIAN

Buried at Trieste, Austria, With Military Honors.

Trieste, July 29.—Isaac Raskellan, electrician on board the United States cruiser Olympia, was buried with military honors yesterday. The cortege was led by the Olympia's band, followed by a squadron of marines. The hearse was followed by 60 American sailors and a detachment of Austrian marines. Admiral Dewey sent a beautiful wreath. The Austrian authorities offered a military band for the occasion, which was courteously declined.

The Olympia will leave on Tuesday for Naples. On the way to New York the cruiser will probably stop at Leghorn, Gibraltar and Madeira.

UNITED STATES' REGRETS.

Port Au Prince, July 29.—William F. Powell, United States minister to Haiti and American diplomatic representative to the republic of Santo Domingo, has sent a telegram to Vice President Figueroa, who has assumed the presidency, assuring him of the keen regret of the United States government at the assassination of President Houmaux. The latest news from Santo Domingo is that all is quiet throughout the territory of the republic.

Display of Spanish Flags.

Havana, July 29.—Brigadier General James H. Wilson, governor of the departments of Matanzas and Santa Clara, has authorized the display of Spanish flags over the Casinos and Casinos in cities under his jurisdiction, provided it is thought that such display will not provoke a riotous public protest. In the event of trouble the local mayor may annul the permit.

Ordered to Join His Regiment.

Lexington, Ky., July 29.—Lieutenant W. T. Johnson of the Third cavalry, who has been stationed here since last June, yesterday received orders to join his regiment at Fort Myers, Va., at once and prepare to go on a Philippine expedition. The regiment sails from San Francisco Aug. 30. Major O. H. Potter takes Johnson's place as recruiting officer here.

Met Political Friends.

Cincinnati, July 29.—Colonel William Jennings Bryan met a few political friends here yesterday enroute from Indianapolis to Franklin, O., where last night he addressed a very large audience on the problems of the day under the auspices of the Miami Valley Chautauqua association.

Convalescent Soldiers.

San Francisco, July 29.—All the convalescent volunteers at the general military hospital will be held there until the regiments are mustered out. It is stated that among 760 patients at the presidio there are only three cases of typhoid fever, and that there is little danger of its becoming epidemic.

STREETCAR WRECKED

Blown Up With Dynamite While Returning From Euclid Beach.

DISORDER AT CLEVELAND

Being Gradually Suppressed—Mayor Farley and Adjutant General Axline Have a Controversy of Their Own—Ten Thousand Men in the Building Trades of Chicago Strike.

Cleveland, July 29.—A car returning from Euclid Beach park was blown up by dynamite last night while returning to the city. The explosion took place a short distance north of the Lake Shore railroad, about two miles east of the city limits. The front truck was demolished and the front of the car shattered. There were no passengers on the car, and the motorman and conductor escaped without injury.

Slowly and surely law and order are triumphing over lawlessness and disorder, and the city is beginning to resume its oldtime appearance. Yesterday the streets were well patronized especially during the busy hours of the day. This is said to be the best indication that the government is winning in the struggle.

The mayor and Adjutant General Axline are at present involved in a controversy over what the troops shall do and what they shall not do. The adjutant general is of the opinion that the duty of the National Guard is merely to put down rioting and not to do police duty. Whatever the duty of the National Guard may be, Mayor Farley holds that the troops are here under his authority and that they will remain here until he feels that they can be dispersed with. The responsibility of preserving the order of the city rests upon the shoulders of the mayor, he says, and he proposes to see that his plans are not interfered with by any one. He declares that he is to be the judge as to when troops are not wanted.

The mayor talks but little interest in the talk of boycotting merchants. He believes that just as soon as quiet is restored and the fever is gone, all such talk will cease. A boycott, he feels, is against natural laws, that a man will not pay 6 cents for an article that can be purchased for 5 cents, and a man will not walk a mile to make a purchase when he can get what he wants at a quarter of a mile.

It is said at the city hall that there was quite a number of the recent employees of the street railway company who would go back to work if permitted, but they are hindered by the leaders of the strike.

Mayor Farley has demanded that the keys of the Hough and Miles avenue school buildings be turned over to him. He wants to use the buildings as barracks for soldiers. In compliance with the demand, as had been the case on the day previous, School Director Sargent ordered the janitors of these buildings to stand ready to admit troops. Director Sargent has ceased to discuss the matter. He says he is obeying orders, and inasmuch as the king can do no wrong, he does not intend to throw discredit on the motives of Mayor Farley.

TEN THOUSAND MEN

On Strike in the Building Trades at Chicago.

Chicago, July 29.—Ten thousand men were thrown out of employment and work was stopped on 200 buildings in course of erection in Chicago during the second day of the strike of the union brickmakers of Cook county. The tie-ups came first on the smaller jobs, where the contractors had not taken the precaution to increase their supply of bricks in anticipation of the strike. The bricklayers and hodcarriers were forced to quit for want of material and following them the carpenters were compelled to lay down their tools.

An effort is being made for an amicable adjustment of the controversy between the strikers and the north side manufacturers today. All the interests directly involved are represented.

TEDDY SENSITIVE

Doesn't Care to Advertise Rough Riders by Public Parades.

New York, July 29.—Governor Roosevelt has written to the committee on plan and scope of the Dewey reception saying that he does not think it possible or desirable to have the Rough Riders take part in the land parade in this city when Dewey arrives. The governor says: "I have grown a little sensitive about having the regiment appear in any public function, because of a tendency to advertise and make it look as if it was advertising itself."

Assaulted, Murdered and Robbed.

Little Rock, July 29.—The aged wife of John Fritzke was found dead yesterday at her home in North Little Rock. The body was horribly mutilated, having been chopped to pieces with an ax. Near the body sat John Fritzke, the husband, in a dying condition from wounds inflicted with an ax. The house had been robbed and the woman assaulted. There is no clew to the perpetrators of the crime.

To Do a Trust Business.

Springfield, Ill., July 29.—The auditor of public accounts has issued a certificate authorizing the Farmers' Loan and Trust company of New York, with office in Springfield, Ill., to do a trust business in Illinois. This is the first instance of a foreign corporation qualifying under the Illinois trust act.

STRANGE BELIEF

Jacob Lass Insists That His Dead Wife is Living.

Richmond, Ind., July 29.—Jacob Lass, a well-to-do German, living south of this city, called on the police superintendent with an odd story. He said he was in search of his wife, whose remains were supposed to have been buried in a country graveyard near his home in April last. He insists that she is living, and is either in this city or else with relatives at Indianapolis. Mrs. Lass committed suicide last April and her remains were buried two days later. Lass now believes that this death was not real, and that a scheme to separate himself and wife was successfully carried out. It is evident that Mr. Lass is deluded on this point. The bereaved husband owns a farm on the Union county line, and has several married children.

\$800 Pension Awaits Him.

South Bend, Ind., July 29.—Frederick M. Weaver, Company C, Seventh Michigan cavalry, came to this city from the Michigan Soldiers' Home in February, 1898, and he cannot be found. A pension of over \$800 awaits his return.

Scalded to Death.

Portland, Ind., July 29.—Jack Ryan was caught in the flow of boiling water and steam from a broken pipe, and so badly scalded that he soon died.

PINGREE PROCLAIMS

Calls on the State to Tender Alger a Reception.

Detroit, July 29.—Governor Pingree yesterday issued a proclamation to the people of the state of Michigan, which says:

"On Wednesday, Aug. 2, the Hon. Russell A. Alger will return to his home in Detroit from Washington. Upon request of the citizens and mayor and common council of Detroit, I extend to you an earnest invitation to join in giving him a hearty reception and greeting. It is fitting that the state recognize the worth and value to the nation of General Alger as secretary of war.

"You are cordially invited to attend the reception at the city hall, and the meeting in the Light Guard armory, Detroit, at which time the people of Michigan will be given an opportunity to express their appreciation of General Alger and to extend their welcome to Michigan's late representative in the highest council of the nation."

Among American Soldiers Fighting in the Philippine Islands.

Seattle, Wash., July 29.—The Times prints what purports to be a full list of fatalities in the American army in the Philippines up to June 2. This list was furnished by Fred F. Etell, a representative of the Manila Freedom, who claims to have obtained it from the records of the surgeon general's office at Manila.

The total number of fatalities is 730—23 officers, 698 privates and 14 civilians attached to the army. A remarkable feature of the record is found in the statement that the number of officers killed in battle is out of all proportion to the number of privates killed. On the other hand, fewer officers died from disease proportionately than privates. Out of 23 officers dead, 16 were killed in action, two were drowned and five died of disease, as follows: Typhoid, 1; meningitis, 2; rheumatism of heart, 1; paralysis, 1.

Of the 699 privates 201 died of wounds received in action; nine were killed accidentally; 23 were drowned and seven committed suicide. One hundred and six died of typhoid fever; 69 of smallpox; 47 of dysentery; 25 of pneumonia; 19 of malarial fever, and 14 of meningitis. The remaining 17 died from various diseases.

Of the 14 deaths among civilians, seven were from smallpox and three from gunshot wounds received in action.

Havana, July 29.—General Gomez has declared that a majority of the alleged interviews with him published in the local press were entirely without foundation, and that he has decided to write himself anything he may hereafter have to say to the press.

"I believe all papers lie," said Gomez, "and that those of one country are in this respect no better than those of another. In the future I will give over my own signature alone anything intended for publication."

General Gomez refused to discuss the presidency of the Dominican republic, claiming to know nothing regarding the matter.

Roosevelt Addresses a Letter to the Cabinet on Several Matters.

Chicago, July 29.—A Washington special to The Tribune says: It has developed that Governor Roosevelt wrote a letter to a cabinet officer a short time ago urging the retirement of General Alger; that General Otis be relieved of his command in the Philippines, and that General Brooks should be succeeded as military governor of Cuba by General Leonard Wood. The governor was unusually severe in his criticisms of the war department, and insisted that the administration could not afford to be held responsible for General Alger nor to continue the dilly-dally plan of operation in the Philippines.

BRADSTREET'S REPORT

Weather Conditions Exercise Their Natural Effect Upon Business.

New York, July 29.—Bradstreet's today says: Weather conditions exercise their natural effect upon the volume of current business, which is, however, larger than a year ago, and restricts speculation therefor, limiting the volume of bank clearings without, however, exercising any particular influence upon prices, which display nearly all their old firmness and, in fact, show still further advances in several lines.

Official statistics of pigiron production for the first half of 1899 point to the largest production on record, having been insufficient to offset current demand, and stocks at the close of the half year are far below what they were at the opening or at this time one year ago.

The cereal markets note little change in price, but trade opinion seems to favor steady demand and few fluctuations in view of admittedly large necessary takings by foreigners.

Liberal rains in the south, particularly in the Atlantic coast states, have improved cotton prospects, and a slight shading in price is to be noted for the week.

Smaller arrivals and heavily reduced stocks of raw sugar, added to large sales of refined, have resulted in an advance in the former product. Lumber is strong in price and some building operations are reported interfered with.

Tobacco is firm and cigar leaf scarce, pointing to good prices being realized by holders.

Among the textiles, cotton goods retain all their old strength. Fall demand for drygoods is increasing, but complaints of slow delivery are more frequent.

Manufacturers of woolen goods are purchasing more freely fine domestic grades, and prices tend upward, although there is less speculative buying reported at leading markets. Business failures for the week number 170 against 174 last week, 189 in this week a year ago, 259 in 1897, 294 in 1898 and 281 in 1895.

JAMES L. SCOTT

Kentuckian Arrested Who Wanted an Engraver For Silver Certificate.

Washington, July 29.—Chief Wilkie of the secret service has received a telegram announcing the arrest of James L. Scott of Lair, Ky. It appears that last April Scott, under an assumed name, advertised in one of the Cincinnati papers for a companion. The advertisement was answered by a Cincinnati who then received an inquiry as to whether he was an engraver. The letters were subsequently turned over to the secret service officers, who continued the correspondence. It developed that Scott wanted a man to engrave one and two dollar silver certificates, and after he had fully committed himself he was arrested and held under bond by the United States commissioner. He will be tried for using the mails for purposes of fraud.

To Be Excommunicated by the Bishop of Belleville (Ills.) Diocese.

Belleville, Ill., July 29.—Right Rev. John J. Janssen of this place, bishop of the Belleville diocese, is about to excommunicate all the members of St. Patrick's parish in East St. Louis.

It is expected that tomorrow notice of such action will be promulgated. It will be the first instance in the history of the Roman Catholic church in this country of the excommunication of an entire parish. Twelve hundred people will be exiled from the ministrations of the church.

Big Elevator Burned.

Tiffin, O., July 29.—Another big elevator fire occurred at Green Springs, near here, yesterday. More than 150,000 bushels of wheat went up in smoke in the fire, which took the Nickel Plate elevator owned by Smith & Cunningham. An adjoining shed containing a large amount of corn was also burned. Spontaneous combustion is given as the cause.

Effect and Cause.

The rattling of the musketry increased. The pirate chief leaped to the mizzen balyards.

He waved his broken sword. "Scuttle the ship!" he shrieked. There was a moment's agonized silence.

Then a quivering voice arose above the guns. "Master," it screamed, "somebody has stolen the scuttle!"

At this the rattling broke forth afresh and the man awoke. His wife was shaking down the kitchen range.—Cleveland Plain Dealer.

John Quinn of the yard, who has laid off two weeks because of sickness resumed his position this morning.

Agent Williams' Dog.

Agent George L. Williams, of the Pennsylvania, is having troubles of his own over his dog. He sent the animal to his sister at North Vernon some time ago but turned the beast into the assessor here, getting a receipt at the same time telling where the dog was spending the summer. Suit has been entered against Mr. Williams' sister at North Vernon and the chances are that she will be fined for harboring a dog. The question is a new one and the ending will be watched with considerable interest.—Jeffersonville News.

Farm House Burned.

The two story frame dwelling on Dr. J. M. Ruddick's farm a half mile south-east of Farmington, caught fire about eight o'clock this morning probably from the flue and burned to the ground. Dr. Ruddick's son, M. F. Ruddick, lives on the farm, and he with the hired hand and the assistance of a few neighbors hastened in from the field to fight the fire. Their efforts were unavailing and the building and about half the household goods were destroyed. The loss amounts to about \$1,000 with insurance for about half the amount.

NOT MUCH OF AN EATER.

It Took, So He Said, Very Little to Satisfy Him.

Captain B. W. Morgan, every inch a Welshman himself, likes to tell this story when there is another Welshman in hearing: He went home to dinner one day and found a paper hanger at work in the house. He asked the time, and Captain Morgan told him it was noon.

"I guess I'll knock off and go home to dinner then," the paper hanger remarked.

"Stay and eat with us," the captain said, and the invitation was accepted.

Captain Morgan was attentive to his guest during the meal. He had a prodigious appetite. The captain helped him to roast beef several times, until at last he had some curiosity to see just how much the fellow would eat without crying enough. The game was growing quite interesting when the fellow began to show signs of quitting.

"Will you have some of the plum pudding?" the captain asked him to revive his failing appetite.

"No, thanks," he replied. "I've had enough, I think."

"Oh, take a small piece of the pudding," the captain urged. "It's genuine English plum pudding and home-made at that."

"Well, I don't mind trying it," he said.

The captain helped him to a section of the pudding weighing about a pound, and he ate it with much relish. Then he shoved his chair away from the table and leaned back for an after dinner chat.

"I'm not much of an eater," he said, not noticing the smile on the captain's face. "It takes very little to satisfy me. Say, you ought to see the Welsh eat."

"Are they hearty eaters?" asked the captain.

"Hearty eaters?" repeated the fellow. "Say, they eat like a lot of hogs."

The Clever Romans.

It seems quite surprising that the ancient Romans did not acquire the art of printing with movable types, inasmuch as they came so very near to it. They had wooden blocks carved with words in reverse, by means of which they stamped those words on pottery, while the latter was as yet unbaked and soft. Incidentally it may be mentioned that they knew the modern method of mending broken pots by means of rivets, and many pieces of pottery thus restored have been dug up.

In ancient Rome there was one daily newspaper, which was written entirely by hand. Furthermore the Roman senate had a publication which corresponds to The Congressional Record, of that important legislative body. It likewise was written by hand. Speaking of baked clay, one might mention the fact that the little boys of Rome 2,000 years and more ago were accustomed to play knuckle down with marbles of that material just as children do now.

Goat's Milk.

Modern Medicine says that goat's milk, contrary to the general impressions, differs from cow's milk not in being more digestible, but in being less digestible and less nutritious, although it contains a larger amount of solid matter than cow's milk. It is indeed the most indigestible of all milk.

Goat's milk has a peculiar and unpleasant odor and flavor, due to lactic acid or bircine. It contains an excess of fat and is therefore altogether too rich for an infant's diet.

In the American Monthly Review of Reviews for August the editor comments on educational conditions in the South, with reference to the future of both the white and colored races. In the same magazine is the address delivered at the Capon Springs W. Va., conference in June by Dr. J. L. M. Curry, one of the foremost educational leaders of the South and an active executive officer of the Peabody and Slater funds.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln who attended her that fearful night. "All thought she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and \$1.00. Trial bottles free at W. F. Peter's drug store.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its and delight its effects were immediate. Whenever I felt symptoms of the disease I fortified myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. W. Milhous.

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hare, of Hare Bros., Fincastrale, Ohio. "After taking two or three doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy I was completely relieved and in a few hours was able to resume my work in the store. I sincerely recommend it to any one afflicted with stomach or bowel trouble." For sale by C. W. Milhous.

The First Anniversary.

It is just a year since the Chicago, Milwaukee & St. Paul road inaugurated its celebrated Pioneer Limited passenger train service between Chicago, Milwaukee, St. Paul and Minneapolis. This service marked the new era in the railroad world in the line of passenger accommodations. At a cost of a quarter of a million dollars that progressive company furnished the traveling public, in its Pioneer Limited train, comforts and facilities the best ever produced. This train has been described many times in newspapers and magazines, but should be seen and examined to be appreciated. In beauty of finish, richness and elegance of furnishing nothing equal to it has ever been attempted by any other road. The car builders were nearly a year in completing the Pioneer Limited trains (there are two—one leaving Chicago for the west and the other leaving the Twin Cities for the east every evening in the year) and they stand today a monument to the builder's art. No regular passenger train service in America is as well known as the Pioneer Limited. From the standpoint of passenger traffic the past twelve months have been the most successful in the history of the St. Paul road, made so very largely by the Pioneer Limited. The patronage of this service is a striking illustration of the fact that the public appreciates a good thing.

High Diving Horses.

Prof. Holloway is in town today with his high diving horses, King and Queen. He is on the way to Riverside on the western extension of the Southern Indiana railway, where he will give a free performance of his wonderful animals tomorrow afternoon. These horses have been trained to plunge from a high tower into water, making the dive as accurately as any man could do. As will be seen elsewhere in this paper, the Southern Indiana railway will run an excursion train tomorrow for the benefit of those who wish to enjoy a scenic trip and to witness a performance never before seen in this country.

Will Remain in Jail.

The habeas corpus proceedings instituted to have David O. Harris admitted to bail were concluded at Brownstown last night. After hearing the testimony of the State's witnesses, the defense having no right in such a proceeding to put its own witnesses on the stand, and brief arguments, Judge Alpaugh decided not to admit Harris to bail, and sent him back to jail to await the next term of the circuit court.

A BIG TIME.

To Be Had at the White River Bridge on the Southern Indiana Extension.

Arrangements are complete for a big time at the new White River bridge on the Southern Indiana near Elora tomorrow, Sunday. The fare from Seymour or the round trip is only 75 cts. Excursions will be run on the S. I. from all stations and on the E. & I. from Terre Haute and Evansville, guaranteeing a big crowd.

There will be a number of attractions the principal feature, however, being a leap by two horses from the bridge into the river, a distance of 39 feet. The horses belong to Hubert Labadie of New York City, who is now in this city. They will arrive at Bedford from New Hampton, Iowa, this evening or Saturday morning. They are both beautiful white horses and are the only ones that have ever, or perhaps ever will, perform this wonderful feat.

Dr. and Mrs. Galbraith Entertain.

The home of Dr. and Mrs. Thos. S. Galbraith was the scene last night of a very pleasant reception given in honor of their guests, Miss Gwin and Miss Petit, of Huntington, W. Va. The hallways and parlors were nicely decorated and brilliantly lighted, which with numerous Japanese lanterns on the lawn made a beautiful picture. The guests were ushered into the front parlor where they were greeted by Dr. and Mrs. Galbraith and introduced to Miss Petit and Miss Gwin, the guests of honor.

Miss Graham, sister of Mrs. Galbraith, assisted in receiving. In the second parlor Mrs. Faulkner and M. A. Groub presided at the punch bowl, while Mr. H. M. Miller and Mrs. W. E. Gerriah had charge in the dining room, where dainty refreshments were served. Music was furnished during the evening by Prof. Johnson's orchestra. There were about seventy-five guests present to enjoy the occasion, which was one of the most delightful with which Seymour society has been favored for a long time.

Prospective Job for Clark.

The Cincinnati Post gives out the information that Allen W. Clark may be employed as amusement manager for the Ludlow Lagoon. It says:

"The appointment of an amusement manager is also under consideration by the receiver. The latest name mentioned for the place is Allen W. Clark, who was advertising manager under Mr. Noonan, and is Judge Tarvin's right hand man in the Bimetallic League."

Allen has been connected with the amusement end of the free silver push in Indiana so long that he would take hold of the Ludlow with valued experience.

NE OF CARDUI

How a Woman Suffers.

Howell, Ind., Nov. 28.

I will always praise Wine of Cardui. It has done me more good than all the medicine I have ever taken in my life. It has cured a host of female diseases to the ladies who name I enclose.

Mrs. MINNIE STODOLLA.

Wine of Cardui

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means that terrible bearing and dragging down in the lower abdomen. It means aching backache, and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhoea. It means martyrdom—sometimes even death seems preferable. And still Wine of Cardui will utterly put those diseases and pains to rest. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through the change of life, this Vegetable Wine is a blessing.

Grain-O Brings Relief.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be other
